

Tip Guide: Logins

Getting Started: Use the Logins feature to store Usernames and Passwords for any accounts your organization manage for your providers or your team. This feature will help your team stay organized by keeping all logins in one place.

Who can access Logins:

- Available to Full-Access Coordinators by Team.
- Visible to Providers who have access to their own profile through the Onboarding feature.

Team Logins:

- Logins are Team level - Profiles that live on more than 1 team will have different lists of Logins by Team.
- Logins are encrypted fields withing OneView - audits are in place for any coordinators who access logins.
- Stay organized by storing all provider and coordinator usernames and passwords in one single secure location

Efficiency Tips:

1. Update your Onboarding invite to request Login Details directly from your provider. When the provider enters their usernames and password from the Onboarding invite, the data will automatically be added to the Logins dashboard.
2. Store your team's shared passwords in the logins tab. If you currently use a shared spreadsheet, enter those login details here. If your team has an FAC profile, you can use that as the Account Owner.
3. Use the notes section in Logins to add additional information for your team to view.

OneView: Tip Guide - Login Dashboard

Use the Logins tab to store usernames & passwords for any accounts that you manage for your providers and your team. Logins is a Team level feature and is available to all full access coordinators on your team. Providers can only see logins that they own (including logins you create for the provider).

Filter Boxes:
Each blank box at the top of each column works as a filter. Use them to apply different filters. Use more than one filter at a time to quickly locate the Logins you are looking for.

Account Owner:
Type in the providers or coordinators name to filter and find that users credentials. The name listed in this column should be whomever the Username and Password belongs to

Important: Logins is a Team level feature and all accounts that are stored here will be accessible by all full access coordinators on your Team.

Logins: Use this tab to start adding Logins and view any existing entries

Type: Each Site is associated with a Type. Quickly filter by the login type here.

Add Login: Manually add login credentials by clicking "Add Login" or by clicking the green plus sign in the right-hand corner of the grid.

Role: This will automatically be entered based off the account owner you select for the login.

- Coordinator: Logins created for coordinators
- Provider: Logins created for providers
- FAC: Logins created for group/facility profiles

Icon Key:
 Direct Link:
Click here to be directed to the stored Logins website.

Viewing Logins:
To view an existing login, click the Side Panel icon in the Actions column.

Deactivate Logins:
Archive or deactivate a login by clicking here. Archived logins can be retrieved by changing the grid filter to "show inactive records" within the three-dot icon.

Flagging:
Click on this icon to "flag" a login when it requires attention. Done updating a flagged login? Just click on the icon again to remove the marker.

Bell:
Click on this icon to disable or enable alerts for the specific login

OneView: Tip Guide - Adding Logins

Securely store provider or coordinator login information for any site such as CAQH, PECOS, and more.

Account Owner: Choose an Account Owner from the drop-down list. The login credentials (username/password) should match the owner you are adding.

Site Name: Type within the free text field to search for the site you wish to add. This will pull a list of potential matches for you to select from. If you picked a website, the URL (address) will be auto- filled in the Site URL and Registration URL fields

Username & Password: Enter in the appropriate Username and Password. These fields will be encrypted once you click Save.

Notes: Add Notes as needed. This section will be encrypted once you click "Add Login"

Efficiency Tip: Update your Onboarding Invitation to include Logins. As your provider fills them out, they will appear in this section.

Start Here - Add Login:
Start Here by clicking "Add Login."

Site Name & Registration URL:
If you picked a website, the URL (address) will be auto- filled in the Site URL and Registration URL fields. If you picked a custom website, enter the URL for the site here. (Examples are "http://yourwebsitename.com" and "http://yourwebsitename.com/signup" .)

*If the website can't be found within our dropdown, please enter the URL for the site in the "Site URL and Registration URL" fields. Please then send this information to support@modiohealth.com

Password Exp. : Add an expiration date to any of your logins.
***Pro Tip* Enter "t+# of days" to count from today.**

Add Login: Once you're done entering the username and password. Click the "Add Login" button to save it.

Eye Icon: Click on the eye icon to view or hide the password you just added.

The screenshot shows the 'Add Login' modal in the Modio OneView application. The modal is a white box with a dark header and footer. It contains two main sections: 'Site Information' and 'Secure Information'. The 'Site Information' section includes a dropdown for 'Account Owner', a search field for 'Site Name', a text field for 'Site URL', a text field for 'Registration URL', and a section for 'Tags' with an 'Add Tags' button. The 'Secure Information' section includes fields for 'Username', 'Password', and 'Password Exp.' (with a calendar icon), and a 'Notes' section with a text area. At the bottom right of the modal are 'Cancel' and 'Add Login' buttons. The background shows a 'Logins' table with columns for 'Account Owner', 'Role', 'State', 'Type', 'Site Name', 'Site URL', 'Registration URL', 'Tags', 'Last Updated', and 'Status'. The table lists various users and their roles, such as 'Kahlo, Frida - LP/ATA' as a 'Provider' and 'Sue Barton, OneView*Admin' as a 'Coordinator'. The footer of the application shows 'Privacy Policy', '© 2025 Modio Health All rights reserved', and 'Terms and Conditions'.

OneView Tip Guide - Login Features: Accessing and Viewing Saved Logins

Grey X icon: Click on the grey X icon under the actions item column to deactivate a login record.

After clicking the grey x there will be a pop-up that appears, asking if you'd like to **deactivate** the record or hit cancel.

Inactive Records: Click on the three-dot icon and filter your grid to "Show Inactive Records."

OneView Tip Guide - Removing Logins

1

Once you've switched to view the inactive records. Click on the empty box to left of the provider's name, to select the record.

2

Once you've switched to view the inactive records. Click on the empty box , left of the provider's name, to select the record.

The screenshot displays the 'Lins' page for Modio University (Virginia Beach, VA). The page features a navigation bar with links for Team, Forms, Tracking, Lins, Tasks, Notes, and Reports. A sidebar on the left contains a search icon and a 'Logins' section. The main area shows a table of login records with columns: Account Owner, Role, State, Type, Site Name, Password Exp., Expires Within, Tags, and Last Updated. A context menu is open over the first row, showing options like '+ Add', '- Remove', 'Open single provider view', 'Clear All Filters', 'Enable/Disable Selected Alerts', 'Copy', and 'Copy with Headers'. A confirmation dialog box is also visible, asking 'Are you sure you want to remove this item?' with 'Cancel' and 'Remove' buttons.

Restoring a deactivated Login:

To restore the deactivated login record, click the green plus sign icon under the Actions item column.

Frequently Asked Questions & Efficiency Tips

Q: Can I run a report or download all stored information from the Logins tab?

There is a Logins report available by request. Since the Logins report contains sensitive data, clients do not have access to run it themselves. If you would like a copy of the report, please email Support@ModioHealth.com and our team will be happy to assist.

Q: What if I need to change the Username or Password of a Login that I have already added?

1. Start by clicking the "Side Panel" icon for the Login entry you wish to modify.
2. A pop-up from the right-hand side will appear, displaying the encrypted username and password.
3. Click the "Show" icon to view these credentials, and click on the fields to make any edits
4. Make any necessary changes to the fields.
5. After making changes, remember to click "Save Changes" to save the updated credentials, as the system won't automatically save this modification.

NOTE: Each time a user decrypts a Login, Modio stores that information for auditing/compliance and tracking purposes.

Q: Can Providers enter their own Usernames & Passwords?

Yes! Your organization can use the Onboarding feature to request logins directly from your provider. See the Onboarding tip guide for additional information.

Q: I can't find the site I need in the logins site list - how do I add the username and password?

If the site you need isn't listed, please email **Support@modiohealth.com** with the full site URL and the site name. Our support team will review and add it promptly. We expand our site list based on client requests, so feel free to send us any login portals you'd like to see included.

There is an option to manually add your logins information: Select Add Login, manually type in the site name, and Copy/Paste the full URL starting with http://. Then, enter the Username and Password and select Add Login.

Please note: Manually entering usernames and passwords will have downstream effects on Onboarding templates, any missing items reports, and searches. Best practice is to enter and save logins under a site available in the dropdown and request any new sites to be added by Support.
